This is an umbrella organisation covering the Lake District teams, police representatives and other organisations interested in mountain rescue, such as RAF and National Park Rangers.

The purpose of the Lake District Search and Mountain Rescue Association is to act as a link between the national Mountain Rescue Council and all other interested bodies. The association speaks out and acts on behalf of the teams on matters relating to Lake District mountain rescue as a whole. It also fosters publicity aimed at the prevention of mountain accidents.

Chairman's Report

Welcome to the 2017 annual report that gives an insight into the work of the teams and the official statistics for the past twelve months up to 31st December 2017 which has been an extremely busy year for the Lake District teams.

2016 had been a relatively quiet year, with reduced numbers of callouts but inevitably this was short lived as 2017 has been one of our busiest years with 546 recorded callouts. This is of concern although the number of man hours involved has reduced which is really good news and possibly due to the now routing use of SARLOC. This texting process uses the in-built smart phone technology to pinpoint the location of a lost walker. This means either a 'talk-off' over the phone or a limited response on the mountain compared to the large full scale searches required in previous years.

The tables at the end of this report, carefully prepared by our statistics officer, are supported by additional notes to help make sense of any changes from previous years. Education and awareness of the dangers and risks for the ill prepared remains a prime concern for teams. Hopefully in time the message will get across. The high numbers of avoidable incidents remain a problem therefore I make no apology for repeating this mantra every year if it helps save a single life.

Technology plays an important part of mountain rescue, improving the service and response times and the teams invest heavily in these areas. The latest investment, which is current and ongoing through 2018, is the changeover to digital radio communication. By April 2018, all the teams will have their new radios and new frequencies. Over £50,000 has already been invested with a further £50,000 to invest in improving the infrastructure (masts and relays). This will improve the operational capability of the 12 teams either locally or collaboratively. This is particularly important when it comes to major or unusual incidents where collaborative working is crucial to a successful outcome. Joint team working is the future which will hopefully ease the increasing workload demanded from our teams and team members.

As a busy region we remain proud and privileged to be able to provide our voluntary and free rescue service to those we rescue. This is only possible through the generosity of those we rescue and the people visiting or living within our communities. There is very little in the way of central funding; therefore fundraising remains an ongoing and very important task for the teams. Their annual costs run at between £30,000 and £80,000 per team and are rising. Donations, bequests and legacies, which are sent to the Association, do make a significant difference. It is gratifying to see that the work of the teams is recognised by both those we rescue and the general public who hear about the work we do. Income to the Association is shared equally amongst the teams to supplement their own fundraising activities. It is important that those who donate know and understand that their contributions, however small, do make a big difference to the ability of teams to provide our free

rescue service to the Cumbrian communities and to visitors in the area. None of our mountain rescue volunteers or LDSAMRA Officers receives any fee or salary for the work they do and as a volunteer organisation we remain very proud of this ethos.

In conclusion, I would like to thank our many supporters, without your help and donations we could not exist as a volunteer service. I would also like to thank the external organisations and agencies with whom we work, over 420 volunteer team members of LDSAMRA and their families for their limitless commitment and support and the LDSAMRA officers, working groups and sub-committees for their dedication, support and hard work over the past twelve months.

Richard Warren

Chairman LDSAMRA, February 2018

Incident Details 2017

January		
<p>1 34375 1 January 12:39 Dry, very windy, cloudy. Track with stone, slate and rock. Subject (M37) slipped off rock whilst descending. Assessed at scene and stretchered off the hill as a precaution. 504 35104 30 November 14:37 Hen Crag, Wetherlam NY294008
 Dry, sunny, very cold and windy. Hillside. Search - Mountain
 Report of cries for help heard on hillside. Stood down when established it was farmer herding sheep.
 Coniston (10 x 0hr 30 min).

505 35132 30 November 18:01 Brothorickeld, Eskdale NY210015
 Fine, very cold. Farmyard. Local Incident
 Report of calls and whistles heard. Investigation found nothing untoward; false alarm good intent.
 Wasdale (18 x 2hr 0 min).

December

506 35035 2 December 13:35 Hole-in-the-Wall, Helvellyn NY3582515555
 Light dry clear cold bright. Moderate frozen icy footpath. Hill Walking (Winter) (Small party)
 Subject (M71) slipped on ice while climbing stile, banging his head. Treated at scene and stretchered from the hill. Minor - head laceration(s).
 Patterdale (12 x 3hr 30 min).

507 34963 2 December 16:08 Grains Gill, Seathwaite NY234100
 Not reported. Not reported. Hill Walking (Small party)
 Subject (F78) reported in difficulty with the conditions. Met up with subject, found to be struggling but in good spirits; escorted from the hill.
 Keswick (13 x 2hr 4 min).

508 34962 3 December 16:42 Bowder Stone, Borrowdale NY25431655
 Not reported. Not reported. Animal Rescue
 Dog reported stuck underground beneath a very large boulder. Retrieved without loss or injury.
 Keswick (7 x 3hr 7 min).

509 34961 6 December 15:44 Birkside Gill, Helvellyn NY329126
 Not reported. Not reported. Hill Walking (Small party)
 Party of two (M, F) reported lost in gathering darkness. Quickly located and escorted off the hill.
 Keswick (14 x 2hr 0 min); Patterdale (3 x 1hr 0 min).

510 34998 8 December 10:45 Corney Fell Road, Stoneside Hill SD143897
 Moderate dry clear cold dull. Not reported. Local Incident
 Vehicle reported stuck on ice on remote moorland road. Stood down responding when informed
 dealt with by police.
 Duddon and Furness (10 x 0hr 30 min).

511 34996 8 December 13:08 The Struggle, Kirkstone Pass NY397076
 Snow clear freezing. Steep frozen icy. Road Traffic Collision (Alone)
 Car occupant reported stranded on ice-covered road. Accessed and conveyed to safety.
 Langdale Ambleside (3 x 1hr 30 min).

512 35033 8 December 16:51 Stybarrow Crag, Glenridding NY3871017970
 Dry cloudy freezing dark. Not reported. Road Traffic Collision (Alone)
 Subject (F30) reported trapped in car after leaving the road and falling 30ft, hitting a tree. Extricated
 from vehicle, treated at scene and airlifted to hospital. Serious - multiple injuries.
 Patterdale (15 x 2hr 30 min).

513 34995 9 December 12:10 Ambleside NY379040
 Dry clear freezing bright. Steep frozen icy. Local Incident (Alone)
 Requested to assist ambulance service having problems accessing a patient's property due to
 wintry conditions. Completed without incident.
 Langdale Ambleside (5 x 1hr 0 min).

514 34994 9 December 13:54 Loughrigg, Rydal NY356053
 Dry clear freezing bright. Steep frozen grassy moorland. Hill Walking (Winter) (Small party)
 Subject (F) slipped on damp, frozen ground, sustaining a leg injury. Treated at scene and
 stretchered from the hill. Minor - simple closed fractured ankle.
 Langdale Ambleside (14 x 2hr 0 min).

515 34960 9 December 15:20 Taylorgill Force, Seathwaite NY230110
 Not reported. Not reported. Hill Walking (Winter) (Small party)
 Subject (F65) slipped on an icy path and took a tumbling fall of 20m into a scree field. Treated at
 scene and airlifted to hospital. Serious - head injuries.
 Keswick (17 x 3hr 22 min); Gt North Ambulance Helicopter (Cumbria); Caernarfon SAR Helicopter.

516 34982 10 December 18:22 Underley, Kirkby Lonsdale SD615801
 Light dry clear cold dark. Not reported. Search - Non-mountain (Alone)
 Vulnerable (F18), with history of self-harm reported missing from care. Stood down on arrival when
 informed subject had returned to accommodation.
 Kendal (15 x 1hr 30 min).

517 35098 11 December 15:20 Blea Water Crag, High Street NY44471054
 Strong dry clear freezing dark. Steep snow/ice and scree. Snow/Ice Climbing - roped (Small party)
 Subject (M) fell while ice climbing, landing on a ledge and sustaining serious injuries. Treated at
 scene and stretchered to location where SAR helicopter could lift and transfer to hospital. Serious –
 no details supplied.
 Kirkby Stephen (9 x 10hr 0 min); Patterdale (14 x 9hr 0 min); Penrith (20 x 8hr 30 min); Gt North
 Ambulance Helicopter (Cumbria); Prestwick SAR Helicopter.

518 34993 11 December 17:58 Loughrigg, Ambleside NY365045
 Dry clear freezing dark. Steep frozen icy footpath. Hill Walking (Winter) (Alone)
 Subject (M) slipped on icy path, sustaining an leg injury. Treated at scene and stretchered off the
 hill. Minor - lower leg injuries.
 Langdale Ambleside (11 x 1hr 30 min).

519 34981 15 December 18:58 Hall Lane, Staveley NY472001
 Calm dry clear freezing bright. Icy. Local Incident (Alone)
 Cyclist (M65) reported fallen from bike and ambulance service struggling to access due to icy road
 conditions. Stood down enroute when informed ambulance crew dealing with incident.
 Kendal (9 x 0hr 30 min).

520 35124 16 December 09:30 Scawgill Bridge, Whinlatter Pass NY179255
 Not reported. Not reported. Road Traffic Collision (Small party)
 Car slipped off the road and down a steep embankment. Stood down when informed driver had left
 the scene.
 Cockermouth (25 x 1hr 30 min).

521 34965 16 December 11:51 Walla Crag, Castlerigg Fell NY277213
 Cold dry cloudy. Ice. Hill Walking (Winter) (Small party)
 Subject (M26) slipped on frozen ground, fell and hit his head. Assessed at scene and stretchered
 from the hill for a precautionary visit to hospital. Minor - head injuries.
 Keswick (13 x 1hr 51 min).

522 34964 16 December 15:53 Atkinson Pike, Blencathra NY320286
 Low cloud. Icy. Hill Walking (Winter) (Small party)
 Party of two (2xM) reported themselves benighted, without torches and in icy conditions. Located
 and escorted to safety off the hill.
 Keswick (6 x 4hr 25 min).

523 34988 19 December 13:41 Glaramara, Seathwaite NY246122
 Low cloud. Ice snow. Hill Walking (Winter) (Small party)
 Subject (M19) reported with injured shoulder after falling near the summit. Treated at scene, but
 SAR helicopter unable to access so stretchered down to valley for a hospital transfer. Minor -
 dislocated shoulder (glenohumeral).
 Cockermouth (13 x 4hr 0 min); Keswick (18 x 5hr 15 min); Caernarfon SAR Helicopter.

524 34987 21 December 16:22 Catbells, Swinside NY244199
 Not reported. Not reported. Hill Walking (Small party)
 Family party (3xM, F) reported benighted and disoriented in mist on the summit. Their location was
 established using SARLoc; they were met by a small party and led to safety.
 Keswick (9 x 2hr 12 min).

525 35067 23 December 14:37 Tebay Fell, Low Borrowbridge NY611016
 Thick fog and strong SW wind 7 deg C. Wet, boggy. Search - Mountain
 Reports of shouts for help and whistles heard from hillside. Nothing untoward found; false alarm
 good intent.
 Kendal (11 x 2hr 34 min); Kirkby Stephen (16 x 5hr 0 min); Penrith (19 x 3hr 0 min); LDNR Search
 Dogs Assoc (1 x 5hr 0 min).

526 35031 24 December 13:06 Winter Crag, Martindale NY4308518559
 Rain cool. Not reported. Hill Walking (Small party)
 Subject (F50) slipped and injured her lower leg. Treated at scene and stretchered to ambulance.
 Serious - stable fractured ankle.
 Patterdale (9 x 2hr 0 min).

527 34986 24 December 13:54 Lingy Bank, Rosthwaite NY249150
 Wet. Slippery. Hill Walking (Small party)
 Subject (M48) slipped, injuring his leg and reported unable to weight bear. Treated at scene and
 stretchered down to vehicle for transfer to hospital. Minor - upper leg injuries.
 Keswick (10 x 1hr 10 min).

528 35030 25 December 05:14 Red Tarn, Helvellyn NY3503915409
Storm heavy rain cold dark. Not reported. Hill Walking (Winter) (Small party)
Party of two (M, F) reported suffering from very cold conditions after an overnight camp high in the hills. Following a phone conversation, they were escorted from the hill.
Patterdale (3 x 3hr 0 min).

529 34992 26 December 00:22 Grasmere NY341074
Showers hill fog cold dark. Not reported. Search - Non-mountain (Alone)
Subject (M), described as high risk, reported missing from home. Search operation was inconclusive but person was located later in day by police.
Langdale Ambleside (6 x 5hr 0 min); LDMR Search Dogs Assoc (1 x 5hr 0 min).

530 34991 26 December 20:26 Little Stand, Cold Pike NY246037
Not reported. Not reported. Hill Walking (Winter) (Small party)
Party of two (2xM) became lost. Their location was established using SARLoc; they were met and escorted off the hill.
Langdale Ambleside (3 x 4hr 0 min).

531 35029 26 December 21:07 Red Screes, Kirkstone Pass NY397083
Strong showers cold dark. Steep rough stony slope. Hill Walking (Small party)
Reports of flashing red lights on hill above mountain pass, police requested an investigation. Found to be people making their way to camp on the hill overnight; false alarm good intent.
Patterdale (4 x 2hr 0 min).

532 35100 27 December 13:36 Low Water, Coniston Old Man SD278981
Fine. Snow and ice. Hill Walking (Winter)
Subject (M49) slipped on ice. Treated at scene and airlifted to hospital. Serious - dislocated knee.
Coniston (12 x 2hr 30 min); NW Ambulance Helicopter (Preston).

533 34985 27 December 13:48 Sharp Edge, Blencathra NY327283
Snow. Snow. Hill Walking (Winter) (Small party)
Party of two (including dog) reported themselves cragfast after one of the party turned his ankle on the snow-covered ridge. Stood down responding when informed that party had been helped to safety by passing climber.
Keswick (18 x 0hr 22 min).

534 35122 27 December 15:24 Dodd, Hopebeck NY170230
Not reported. Not reported. Hill Walking (Small party)
Subject (F63) slipped. Treated at scene and stretchered down the hill to a waiting ambulance.
Minor - simple closed fractured fibula.
Cockermouth (17 x 2hr 30 min).

535 35101 28 December 14:35 Walna Scar Road, Walna Scar SD273964
Fine. Snow and ice. Hill Walking (Winter) (Small party)
Subject (F48) slipped and fell while walking. Treated at scene and stretchered off the hill to an ambulance. Serious - stable fractured ankle.
Coniston (17 x 2hr 30 min).

536 35102 28 December 15:13 Walna Scar Road, Walna Scar SD274964
Fine. Ice. Hill Walking (Winter) (Small party)
Subject (M46) slipped on ice. Assisted off the hill for further treatment. Minor - superficial laceration(s) to hand.
Coniston (4 x 1hr 0 min).

537 35096 29 December 09:00 Beacon Plantation, Penrith NY52593147
Not reported. Not reported. Search – Non-mountain
The police requested assistance to search an area of woodland above Penrith. The team along with Kirkby Stephen MRT searched the woodland in sections. Nothing was found and after a discussion with the police the teams stood down.
Kirkby Stephen (12 x 5hr 30 min); Penrith (26 x 5hr 30 min)

- 538 34990 29 December 13:08** **Wansfell, Ambleside** **NY384037**
 Not reported. Not reported. Search - Mountain
 Local resident, looking out of window, reported seeing someone fall considerable distance on snow covered hillside. Area searched but nothing found. False alarm, good intent.
 Langdale Ambleside (3 x 2hr 0 min).
- 539 34997 29 December 18:40** **Corney Fell Road, Corney** **SD118918**
 Moderate drizzle poor cold dark. Not reported. Local Incident (Small party)
 Vehicle reported left road and rolled over. Stood down responding when informed police on scene.
 Duddon and Furness (18 x 0hr 40 min).
- 540 34989 30 December 16:28** **Lingmoor, Gt Langdale** **NY292059**
 Dry clear cool dark. Moderate waterlogged grassy bank. Hill Walking (Small party)
 Subject (F) slipped on wet, thawing ground and sustained a leg injury. Treated at scene and stretchered from the hill. Minor – simple closed fractured ankle.
 Langdale Ambleside (10 x 3hr 30 min).
- 541 35028 30 December 17:05** **Aira Force, Ullswater** **NY4006920126**
 SE light dry cool dull. Not reported. Hill Walking (Small party)
 Party of two (F22, M16) reported lost in area of popular beauty spot. During initial search efforts, party turned up safe and well.
 Patterdale (13 x 0hr 30 min).
- 542 35066 31 December 08:00** **Beacon Plantation, Penrith** **NY524315**
 Drizzle. Wet/muddy woodland. Search - Non-mountain (Alone)
 Vulnerable person reported missing from home. Search inconclusive, suspended pending further enquiries.
 Kirkby Stephen (12 x 7hr 0 min); Penrith (14 x 7hr 0 min).
- 543 35114 31 December 15:21** **Wray Crag, Kentmere** **NY474053**
 W strong showers cloudy cool dark. Level very wet boggy footpath. Hill Walking (Small party)
 Subject (F20) slipped on wet ground, sustaining a leg injury. Treated at scene and stretchered landrover for transfer down track to ambulance. Minor - simple closed fractured right tibia and fibula.
 Kendal (10 x 3hr 49 min).

Notes

SARLoc – a system that interrogates a GPS-enabled mobile phone and displays the location of that phone on mapping software used by MR teams. For further information see <http://www.go4awalk.com/the-bunkhouse/walking-news-and-discussions/walking-news-and-discussions.php?news=710222>

MRT – Mountain Rescue Team.

C2C – Coast-to-Coast, long distance walk from St Bees Head to Robin Hood's Bay.

Accident Summary

The tables that follow summarise the foregoing details and enable a comparison with the previous four years.

Incidents	2013	2014	2015	2016	2017
Incidents – all	437	474	536	436	543¹
By Activity					
Hill walking (non-winter)	250	313	327	287	359 ²
Hill walking (winter)	37	12	26	28	24
Climb/Scramble	15	18	20	8	22 ³
Mountain Bike	13	13	37	15	15
Orienteer/Fell Running	12	16	11	9	11
Hang-gliding/Parapenting	7	1	5	5	2
Resilience	49	31	40	36	39
Non-Mountain Search	17	19	13	12	24 ⁴
Water Sports	6	8	10	9	10

Table 1 Incident - by Activity

Notes:

1. The total number of incidents attended gives cause for concern. This is the largest on record but was achieved with fewer man-hours (25,484). This must prompt a question of sustainability if visitor numbers are to continue increasing.
2. Hill walking incidents, the vast majority of our work, has seen a significant increase. As has been said on many occasions, these have often resulted from inadequate experience and/or poor preparation.
3. This increase in Climbing/Scrambling incidents has been noted but cannot solely have resulted from weather conditions; inadequate experience and insufficient preparation must have contributed to this rise.
4. The evidence for a trend in Non-mountain Searches is insufficient; however, as quieter teams are used increasingly to support the busier ones, their use in non-mountain searches may become challenging; again, it will be a question of sustainability.

Persons Assisted	2013	2014	2015	2016	2017
Persons - all	425	481	521	411	574¹
By Activity					
Hill walking (non-winter)	300	377	379	296	429 ²
Hill walking (winter)	41	16	31	38	37
Climb/Scramble	20	17	22	5	25 ³
Mountain Bike	11	12	32	13	13
Orienteer/Fell Running	11	10	9	10	10
Hang-gliding/Parapenting	5	1	4	5	1
Resilience	12	12	14	17	19 ⁴
Non-Mountain Search	13	16	9	9	22 ⁵
Water Sports	9	5	6	8	5

Table 2 – Persons Assisted – by Activity

Notes:

1. The significant increase in the number of persons assisted should not be a surprise given the increase in incidents referred to earlier (Note 1 Table 1). Following the granting of World Heritage status, there seems that there is every likelihood that this number will increase, in line with visitor numbers.
2. This increase in non-winter hill-walking must be a worrying figure. This association has made continuous and strenuous efforts to get the safety message across to the visiting public. The increased popularity must be met with increased efforts at education and raising awareness of the dangers. (ref: <http://www.ldsamra.org.uk/documents/ldsamrastaysafe.pdf>)
3. Last year's figure appears to have been a false sign of a hoped-for reduction. This increase is mainly due to people venturing onto difficult terrain; inadequate experience of moving on difficult ground or failure to re-assess plans in the light of poor weather conditions. There is no loss of face in turning back and returning another day.
4. Whilst not a significant increase, this activity should be monitored as demands on public services increases and their funding decreases.
5. The notable increase in the number of person in non-mountain searches could be seen as consistent with the incident figures. The comments about sustainability (Note 4, Table 1) are reinforced by this figure.

Fatalities	2013	2014	2015	2016	2017
Persons - all	14	11	30	8	17¹
By Activity					
Hill walking (non-winter)	7	8	16	5	12
Hill walking (winter)	1	0	3	0	1
Climb/Scramble	0	1	2	0	0
Mountain Bike	1	0	1	0	1
Orienteer/Fell Running	0	0	0	0	1
Hang-gliding/Parapenting	0	0	1	0	0
Resilience	1	0	1	1	0
Non-Mountain Search	2	2	3	2	1
Water Sports	2	0	1	0	0

Table 3 – Fatalities – by Activity

Notes:

1. The total number of fatalities represents both a doubling compared to 2016, but a halving compared to the 2015 figure. However, there appears to be a consistent proportion with the years 2014 and 2013 – a sort of normality.
2. The cause of death is rarely clear from the reports but we can be sure that
 - a. 13 (76%) resulted from a sudden collapse due to a medical condition; 4 were diagnosed as heart attacks.
 - b. 3 (18%) resulted from traumatic injury while hill walking or mountain biking
 - c. 1 (6%) resulted from drowning.
3. The gender divide is 14 (82%) male and 3 (18%) female. For more than a half of the cases, an age was no supplied, so no analysis would be valid.

Required Medical Attention	2013	2014	2015	2016	2017
Persons - all	228	255	290	252	301¹
By Activity					
Hill walking (non-winter)	155	192	206	189	226 ²
Hill walking (winter)	29	8	9	12	13
Climb/Scramble	10	16	13	4	13 ³
Mountain Bike	7	12	27	13	12
Orienteer/Fell running	9	9	9	8	8
Hang-gliding/Parapenting	5	0	2	3	0
Resilience	8	11	10	12	12
Non-Mountain Search	1	0	1	1	5 ⁴
Water Sports	2	1	2	3	2

Table 4 Required medical attention – by Activity

Notes:

Most of the totals are consistent with the figures expected given the number of people involved in these activities, with the following exception

1. This means that just over half the persons mountain rescue encountered in their work in 2017 required medical attention. This proportion has remained fairly constant over the years. Even with the increased attendance of professional medics with the air ambulance, ambulance service and team doctors, there will still be a demand for team members to deal with serious medical situations. This highlights the need for continued training.
2. As if to emphasise this, many subjects presented in difficult locations, especially when they are hill walking.
3. Again, last year's dramatic drop in this category has not been sustained. These subjects tend to end up in very difficult locations and have to be treated for their injuries before they can be moved to safety
4. Whilst this figure is greatly increased on previous figures, there is usually very little that can be achieved in the field. They must instead be quickly despatched to definitive care.

Causes of Incidents

The following table is the result of a search through all the reports for key words relating to the causes of calling out the MRTs. For example, the category 'Benighted' will include any word with 'benight-' and 'darkness' as part of the word or phrase.

Please note that the totals of these columns may not match the number of incidents given at the bottom of each column. Many incident reports refer to more than one of these causes. A typical report will illustrate this:-
'tripped on footpath whilst walking and fell 2m onto rocky ground'
 This will result in contributions to the 'Slip, Trip or Stumble' and 'Fall or Tumble' categories.

Cause of Incident	2013	2014	2015	2016	2017
Avalanche	0	0	0	0	0
Belay/Runner Failure	2	0	1	0	0
Benighted	10	10	13	7	25 ¹
Cragfast	23	22	22	17	33 ²
Fall or Tumble	91	93	123	93	130 ³
Lightning	0	0	0	0	0
Lost or Disorientated	49	57	63	59	74 ⁴
Medical Collapse or Illness	20	23	45	34	30
Overdue or Missing	37	47	43	30	34
Rockfall	0	1	1	0	2
Shouts, Lights or Flares Reported	16	6	6	8	9
Slip, Trip or Stumble	111	121	108	126	140
Unable to Continue	28	28	26	20	22
Total Incidents	433	472	536	436	543

Table 5 – Causes of Incidents

Notes:

1. This shows people come ill-equipped for the conditions.
2. This proves people attempt routes well beyond their experience.
3. This is usually in the two most frequent categories of causes of incidents and is not unexpected.
4. Together with 'Overdue or Missing', these account for 1 in 5 of the incidents where teams must deploy.

Age Profile of Subjects

The following table shows the ages of both male and female subjects where both age and gender were reported. However, the totals include those whose ages were not reported

Age (yrs)	Gender	2013	2014	2015	2016	2017
1 – 10	Male	4	3	6	1	4
	Female	2	2	0	0	2
11 – 20	Male	28	26	16	16	27
	Female	14	22	11	11	24
21 - 30	Male	25	28	30	28	34
	Female	20	9	30	21	16
31 - 40	Male	18	15	20	11	30
	Female	9	11	12	12	12
41 - 50	Male	33	23	20	16	25
	Female	15	25	8	14	25
51 – 60	Male	25	12	31	21	24
	Female	33	23	27	27	22
61 - 70	Male	35	21	31	33	19
	Female	17	17	22	24	28
71 – 80	Male	13	21	13	14	14
	Female	7	14	10	12	11
81 +	Male	5	6	4	3	3
	Female	1	5	4	2	4
Totals	Male	246	251	265	211	310
	Female	159	168	190	189	231

Table 6 – Age Profile of Subjects

Types of Conditions / Injuries

The table that follows is the result of a search through the reports for key words relating to type of injury or medical condition diagnosed on site. For example, the category 'Lacerations' will include any word with 'lacerat-', 'cut-' or 'gash-' as part of the word or phrase.

Please note that the totals of these columns do not match the number of persons given at the bottom of the table. Unfortunately, many subjects sustained more than one injury as a result of the accident. A typical example will illustrate this:

'Fracture/dislocation of the ankle, cuts to hands and knee'

This will result in contributions to the fracture, dislocation and laceration categories.

Condition / Injury	2013	2014	2015	2016	2017
Abrasions / Scratches	2	4	6	3	4
Asthma	0	3	0	1	1
Bruising	2	1	3	1	3
Burns / Scalds	0	1	0	1	0
Concussion	2	2	2	0	1
Cramp	0	0	1	2	0
Crush Injury	1	0	0	1	0
Diabetes	0	1	3	1	0
Dislocation	19	17	12	15	18
Epilepsy	3	3	2	4	4
Exhaustion	2	7	7	5	0
Fracture	75	71	74	72	84
Heart Attack	7	3	5	8	6
Hypothermia	9	7	4	5	12
Illness	0	0	0	1	0
Lacerations	8	7	24	10	19
Connective Tissue Damage	4	4	2	4	4
Multiple Injuries	5	7	9	6	11
Pain / Tenderness	13	23	19	21	21
Shock	0	0	0	0	0
Sprain / strain	10	5	2	7	6
Loss of Consciousness	3	3	7	1	3
Total Injured Persons	242	265	320	261	317

Table 7 – Types of Conditions / Injuries

Sites of Injury

The table that follows is the result of a search through all the reports for key words relating to sites of injury or medical condition. For example, the category 'Lower leg' will include any word with 'tibia', 'fibula', 'lower leg' and 'shin' as part of the word or phrase.

Please note that the totals of these columns do not match the number of persons given at the bottom of the table. Unfortunately, many subjects sustained more than one injury as a result of the accident. A typical example will illustrate this:
'Fracture/dislocation of the ankle, cuts to hands and knee'
 This will result in contributions to the ankle, hands & wrist and knee categories.

Site of Injury	2013	2014	2015	2016	2017
Abdomen	4	1	4	1	5

Total Injured Persons	242	265	320	261	317

Table 8 – Sites of Injury

Notes:

1. Taking 'Head' and 'Neck' injuries together, these show that it is sometimes impossible to protect the head unless a helmet is worn. We are not advocating the routine wearing of helmets; however, great care should be advised when traversing difficult ground because of the consequences of head and neck injury. Such injuries could have life-changing consequences.
2. As with previous years, injuries to the 'Lower Leg' and 'Ankle' dominate this particular report.

Lake District Search & Mountain Rescue Teams

For rescue assistance

- Go to the nearest telephone and dial 999.
- Ask for 'Mountain Rescue'.
- Give the location name & grid reference, time of accident, nature of injuries – name, gender and age of casualty if known.
- Stay by telephone until police or rescue team make contact.

The names and contact details given below are for administrative purposes only. In the event of an accident, use 999 as above.

All the above posts are in the area of the OS Lake District Outdoor Leisure Maps (1:25 000) though not all are marked as MR Posts.

The position of a post is sometimes changed. Verify locally.

Mobile Phones & Mountain Rescue

Advice to Users

There is no doubt that using mobile phones have saved lives in the mountains and fells of this country. The sooner rescue teams are alerted to an incident, the better are the chances of a quick and complete recovery for the victim. However, over the past few years there have been occasions when teams have been alerted inappropriately. The notes that follow are given in the hope that the mobile phone can be used to better effect and to minimise any frustration.

When to use

- If you or a member of your party sustains an injury warranting the assistance of a mountain rescue team.
- If you come across someone who has sustained an injury warranting the assistance of a mountain rescue team.
- If one of the party has become separated from you and you have made every effort to but have been unable to meet up again.
- If you want to report having seen or heard any internationally recognised distress calls.
- If you wish to notify someone of a change of plan (not a 999 call).

When not to use

- Do not use the mobile phone at the 'first sign of trouble'; be self-reliant if possible.
- Do not rely solely on the mobile phone as a safety device; there are areas of poor or no reception ('dead areas').
- The mobile phone is not a substitute for experience.

How to use

1. First make a note of all relevant details, Location and Grid Reference
Name, Gender and Age of Casualty.
Nature of Injuries or disability.
Number of people in party and intended destination.
THE NUMBER OF THE MOBILE PHONE IN USE.
2. Dial 999 and ask for the Police.
3. Make sure you tell the operator that you require the Cumbria Police as you are in the Cumbria.
4. When connected to a Police control room, check that it is the Cumbria Police. If it is not, then make sure that the information will be passed on.
5. Explain the nature of your call, giving details previously prepared (1).
6. Do NOT change your position until contacted by Rescue Team, who will agree future protocol for use of Phone.
7. If you have to make a further 999 call, use ALL the procedure again.

Advice to Mountain Users

Many calls to Mountain Rescue Teams are avoidable. With adequate preparation, awareness of local conditions, experience and the application of commonsense, the number of accidents can be reduced. The following points cover the minimum precautions you should take if you want to avoid getting hurt or lost or, in the event of an accident, minimise further harm to you and your party.

Planning and Preparation

- Plan before setting out! Maps are essential and guidebooks are full of advice.
- Consider the equipment, experience, capabilities and enthusiasm of the party members.
- Check the weather forecast and local conditions; Scottish mountains can be major undertakings. Night encroaches early in the winter and the further north you go! Check the website www.mwis.org.uk
- Carry a First Aid kit and learn how to give First Aid.
- Many accidents occur towards the latter part of the day when both your energy levels and those of your phone and GPS batteries will be run down. Did you remember to charge your battery before setting out?

Footwear and Clothing

- Wear suitable boots with a treaded sole and sufficient support for ankles.
- Clothing should be colourful, warm, windproof and waterproof.
- Take spare warm clothing and perhaps a hat and gloves; it is always colder on the tops.

Food and Drink

- In addition to the usual sandwiches, take chocolate, dates, or similar sweet things, this can restore energy quickly. You may not need them yourself, but someone else may.
- Streams on hills are drinkable if fast-running over stony beds.

Equipment and its Use

- A map, compass and the ability to use them; at least one reliable watch in the party should always be carried.
- If you carry a GPS, at least know how to read your current position. It could save a lot of hassle in an emergency when speaking to the Mountain Rescue Team.
- In all conditions, it is wise to carry a whistle, torch, spare batteries and bulbs; but in winter conditions, an ice-axe, crampons and survival bag are essential.
- Climbers and mountain bikers are all urged to wear suitable helmets at all times.

Party Size

- If in groups, make sure party leaders are experienced; do not let the party become separated.
- Take special care of the youngest and weakest in dangerous places.
- If you prefer to go alone, be aware of the additional risk. Let people know your route before you start, stick to it as far as you can and notify them of any changes.

Emergency Procedures

- Be prepared to turn back if conditions are against you; even if this upsets your plan. Report changes of route or timetable to someone who is expecting you.
- If you have a serious problem, get a message to the Police (999) for help as soon as possible and keep injured/exhausted people safe and warm until help reaches you. If you cannot contact anyone, use six whistle blasts or torch flashes, repeated at minute intervals, to signal an emergency.

Dangers - all can be avoided by good route-finding

- Cliffs, slopes of ice or steep snow
- Very steep grass slopes, especially if frozen or wet
- Unstable boulders, gullies, gorges and stream beds
- Rivers and streams in spate
- Snow cornices on ridges or gully tops
- Exceeding your experience and abilities

Dangers – all can be avoided by remaining alert

- Weather changes - these can be sudden and more extreme than forecast
- Ice on path - carry an ice-axe and crampons - and know how to use them
- Loss of concentration, especially toward the end of a long day
- Excessive cold or heat - dress appropriately
- Separating from the rest of the group
- Incipient exhaustion - know the signs; rest, take some food and keep warm
- Accident or illness - don't panic - if you send for help, make sure you stay put and the rescuers know exactly where to come
- Passage of Time - especially true when under pressure - allow extra time in winter conditions

Pride

- It is no disgrace to turn back if you are not certain. A party must be governed by the capabilities of the weakest member.

Donating To Mountain Rescue

If you wish to support financially the Mountain Rescue Service, in the Lake District, the Association will be pleased to receive your donation. The Association equally shares out all it receives to the 12 Teams in the Lake District. There are several ways of assisting, some more financially advantageous than others.

1. Gift Aid

Following recent changes in the law relating to donating to charities, completion of a Deed of Covenant is no longer necessary. Most donations are now covered by a Gift Aid declaration. If you pay tax, Gift Aid is a scheme by which you can give a sum of money to a charity and the charity can reclaim from the Inland Revenue basic rate tax on your gift. You can make payments by cash, cheque, postal order, direct debit or standing order. Subject to a few rules, you can give any amount, large or small, regular or one-off and the charity can reclaim the tax.

If you want to make a donation through Gift Aid please complete the form printed overleaf having read the notes and return it, with either your donation or a completed copy of the Bankers Order to the Association's treasurer.

1.1 If your declaration covers donations you may make in the future:

- Please notify the charity if you change your name or address while the declaration is in force
- You can cancel the declaration at any time by notifying the charity – it will then not apply to donations you make on or after the date of the cancellation or such later date as you specify.

1.2 You must pay an amount of income tax and/or capital gains tax at least equal to the tax that the charity reclaims on your donations in the tax year (currently 28p for each pound you give).

1.3 If in future your circumstances change and you no longer pay tax on your income and capital gains equal to the tax that the charity reclaims, you can cancel your declaration (see note 1.1)

1.4 If you pay tax at the higher rate you can claim further tax relief in your Self Assessment tax return.

1.5 If you are unsure whether your donations qualify for Gift Aid tax relief, ask the charity. Or you can ask your local tax office for leaflet IR113 *Gift Aid*

2. Give As You Earn

This is a tax free way of giving to charities direct from your pay and many employers have agreed to co-operate. The donation is deducted from your pay before your tax deduction is calculated. The Association is registered with the Charities Aid Foundation.

If this appeals to you, please approach your employer with these details:

Charity Name:	LDSAMRA	Bank Account No:	81205617
Bank Code:	40-22-16		
Give As You Earn Reg.	No:004184
